FRX6 微动开关 FRX6 microswitch

FRX6微动开关是为满足市场需求, 为客户开发的一种与带基座熔断器配套, 使用方便的新型开关。该产品动作灵活, 闭全可靠, 需要2组接点可选用FRX26双开关。该产品适用于各类带基座熔断器, 熔断器断开时, 开关给出电信号。

FRX6 microswitch is a new type of switch developed for customers to meet the market demand, which is matched with the fuse with base and easy to use. The product has flexible action and reliable closing. Two groups of contacts are required, and FRX26 double switch can be selected. This product is applicable to thousands of kinds of fuse with base. When the fuse is disconnected, the switch gives an electrical signal.

电气参数 Electrical parameters

FRX6 微动开关: 额定电压250Vac (Max), 额定电流5A.

FRX6 microswitch: rated voltage 250VAC (max), rated current 5A

使用安装 Use installation

- ◎将开关4个底角平稳卡入熔断器基座。
- ◎将信号线与开关接线端子按要求可靠连接。
- ◎安装地点户内空气应清洁。

- ◎Clip the fuse into the base of the 4 switches smoothly.
- ◎ Connect the signal line and the switch terminal reliably as required.
- ◎ The indoor air at the installation site shall be clean.

FRX8卡装式微动开关

FRX8 Snap-on Micro Switch

- ◎配有一个常开触点和一个常闭触点, 开关接线端标识与外标识的对应:
NC(常闭触点), NO(常开触点), COM(公共触点)
- ◎符合RoHS
- ◎额定电压:250Vac/24Vdc
- ◎用于带卡榫和安装指示基座的低压熔断器远程指示

- ◎with a normally open contact and a normally closed contact, the switch terminal identification corresponds to the outer identification
NC (normally closed contact), NO (normally open contact), COM{common contact}
- ◎RoHS compliant
- ◎Rated voltage: 250Vac/24Vdc
- ◎Remote indication of low-voltage fuses with thousands of belt clips and mounting indicating bases

型号 Product model	额定电流 Rated current	阻燃等级 Flame retardant grade	介电强度 Dielectric strength	接触电阻 Contact resistance	外接线尺寸 External wiring size
