Mini-Mac Applicator Air-Feed

# **Application Tooling Specification Sheet**

Order No.63832-0700

### **FEATURES**

- Directly adapts to most automatic wire processing machines
- Applicator designed to industry standard mounting and shut height 135.80mm (5.346")
- Quick set-up time; plus the crimp height, track and feed adjustments can be set without removing the applicator from the press
- Fine adjustment allows users to achieve target with little effort by adjusting in increments of .015mm (.0006") for conductor crimp height and .063mm (.0025") for insulation height
- Independent adjustment rings allow users to quickly adjust the conductor or insulation crimp height without affecting each other.
- Molex applicators with air feed require presses equipped with an air valve. Molex presses with air valves include the TM-4000 (63801-7600).

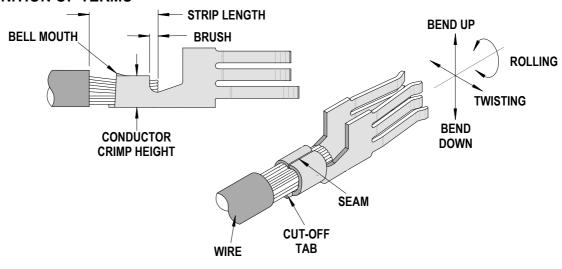

### **SCOPE**

Products: Power 60 Amp Crimp Terminals, 8 AWG.

| ◆Overall insulation OD specification for terminal. |   |                    |     |      |                                 |     |              |     |

<u>Note:</u> The 63832-0700 applicator must be used with TM-4000 (63801-7600) or an equivalent press with no less than 3 tons.

## **DEFINITION OF TERMS**

Doc No: ATS-638320700 Revision: C Release Date: 07-09-09 Revision Date: 06-14-12

## **CRIMP SPECIFICATION**

| Tarminal Carias No. | Bell n    | nouth   | Cut-off Tak | Maximum | Conductor Brush |         |  |
|---------------------|-----------|---------|-------------|---------|-----------------|---------|--|
| Terminal Series No. | mm        | ln.     | mm In.      |         | mm              | ln.     |  |
| 46819               | 0.25-1.25 | .010049 | 0.35        | .014    | 1.00-2.50       | .039098 |  |

|                     | Bend up Bend down |  | Twist Roll Pu |   | Punch W   | idth (Ref) | Seam                     |  |
|---------------------|-------------------|--|---------------|---|-----------|------------|--------------------------|--|
| Terminal Series No. | Degree            |  | Degree        |   | Conductor |            | Seam shall not be        |  |
|                     |                   |  |               |   | mm        | In         | open and no wire allowed |  |
| 46819               | 3 3               |  | 3             | 3 | 6.00      | .236       | out of the crimping area |  |

After crimping, the crimp profiles should measure the following.

|                     | Wire Size |                 |              | Condu   | Pull Force Minimum |      |                    |        |
|---------------------|-----------|-----------------|--------------|---------|--------------------|------|--------------------|--------|
| Terminal Series No. |           |                 | Crimp Height |         |                    |      | Crimp Width (Ref.) |        |
|                     | AWG       | mm <sup>2</sup> | mm           | ln.     | mm                 | ln.  | N                  | Lb.    |
| 46819               | 8         | 8.50            | 3.50-3.60    | .138142 | 6.10               | .240 | 951.92             | 214.00 |

## **Tool Qualification Notes:**

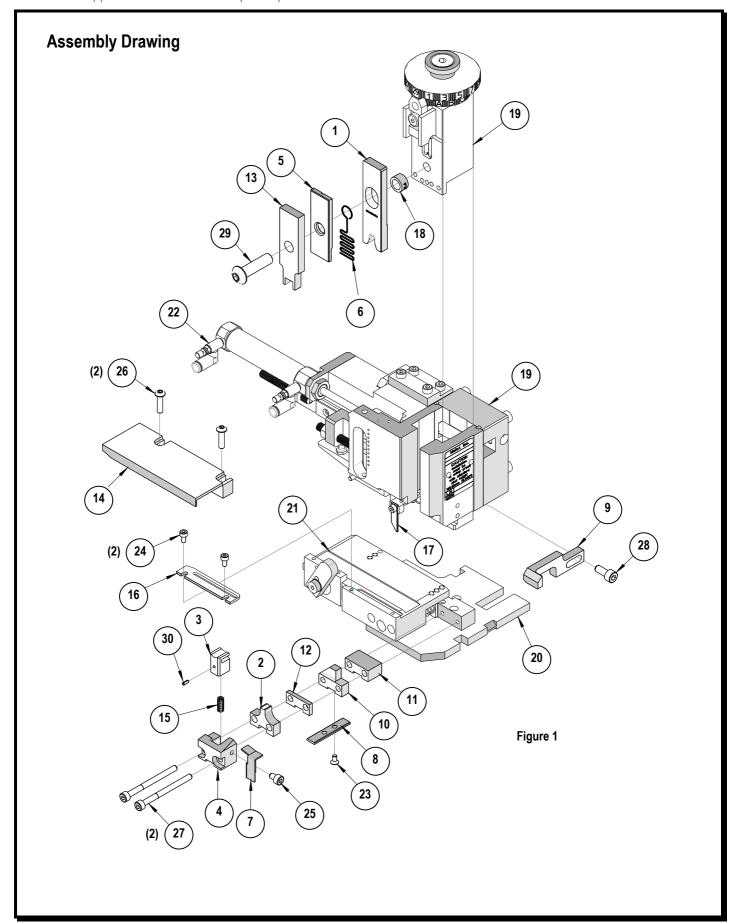

The above specifications are guidelines to an optimum crimp.

### NOTES

- 1. Molex recommends an extra perishable tooling kit be maintained at your facility.
- 2. Verify tooling alignment by manually cycling the press with Applicator before crimping under power. Check that all screws are tight.
- 3. Slugs, Terminals, Dirt and Oil should be kept clear of work area.
- 4. Wear safety glasses at all times.
- 5. For recommended maintenance refer to the Mini-Mac Applicator Manual (Document no. 63880-0000).

**CAUTION**: This applicator should only be used in a press with a shut height of 135.80 mm (5.346"). Tooling damage could result at a lower setting.

CAUTION: To prevent injury never operate this Applicator without the guards supplied with the press or wireprocessing machine in place. Reference the press or wire processing manufacturer's instruction manual.

**CAUTION**: Molex crimp specifications are valid only when used with Molex terminals, applicators and tooling.

## **Contact Information**

For more information on Molex Application Tooling please contact Molex at 1-800-786-6539.
